ANTONY REMANE

Data Engineer

antonyremane13@gmail.com | +917708616344 | Bangalore, Karnataka, India | LinkedIn | GitHub | Portfolio

SUMMARY

Computer Science graduate skilled in Python, SQL, Pandas, data preprocessing, data transformation, and REST API integration. Experienced in working with structured data and relational databases, with a strong foundation in ETL development, data pipeline design, and data validation.

TECHNICAL SKILLS

Programming: Python | SQL | Java

Data Engineering: ETL Pipeline Development | Data Ingestion | Data Transformation | Data Validation | Data Quality Checks

Data Processing: Pandas | NumPy | Data Cleaning | Data Preprocessing | Data Reconciliation

SQL & Databases: MySQL | PostgreSQL | SQL Joins | Aggregations | Subqueries | CTEs | Window Functions

APIs & Integration: REST APIs | JSON | API Integration

Development Tools: Git | GitHub | Jupyter Notebook | VS Code | Jira

Supporting Skills: Relational Data Modeling | Data Structures & Algorithms | SQL query optimization | Prompt Engineering

WORK EXPERIENCE

Relationship Manager - Square Yards Pvt. Ltd., Bangalore May 2026 – Sept 2026

- Analyzed customer and lead information to identify high-potential prospects and support data-driven customer engagement strategies.
- Monitored lead progression, customer interactions and follow-ups to identify business trends and opportunities.

PROJECTS

ETL Pipeline & Sales Analytics Dashboard | GitHub Repository | Live Dashboard: Power BI

- Developed a fully functional end-to-end ETL pipeline using Python, Pandas, and MySQL to automate retail data extraction, cleaning, validation, transformation, and loading for sales analytics.
- Processed 25,000 retail records, implementing deduplication and source-to-target reconciliation; enhanced SQL aggregations and an interactive Power BI dashboard to analyze sales trends and product performance.

Tech Stack: Python, Pandas, MySQL, SQL, Power BI, ETL, Data Cleaning, Data Validation, Data Reconciliation, Data Analytics

ChurnIQ – Customer Churn Prediction & Analytics Platform | Live at **ChurnIQ**

- Built a logistic regression model with preprocessing, stratified train/test split, 5-fold cross-validation, churn probability scoring, and customer retention prioritization.
- Developed a customer churn analytics platform using the IBM Telco Customer Churn dataset, implementing data cleaning, feature engineering, segmentation and KPI analysis.

Tech Stack: React, TypeScript, Logistic Regression, Machine Learning, SQL, Power BI, Data Analytics

Elite Weather – Weather Data Analytics Application Hosted on Lovable | Live Project at **Elite Weather**

- Developed and deployed a responsive weather web application using AI-assisted development and OpenWeather API for real- time, city-based data.
- Gained hands-on experience in prompt engineering, API integration, and deployment workflows.

Tech Stack: OpenWeather API, Web APIs, Deployment Tools, Lovable AI

EDUCATION

B.E. in Computer Science and Engineering | CGPA: 7.6/10 2022 – 2026

Stella Mary's College of Engineering Nagercoil, Kanyakumari

INTERNSHIPS

Data Science Training – JClick Solutions

- Gained hands-on experience in data analysis, visualization, and basic model building

Data Science & Analytics Internship – Future Interns

- Performed data cleaning, exploratory data analysis (EDA), and visualization using Python
- Received Certificate of Completion and Letter of Recommendation

Business Development Associate Intern – Orvionar Tech Pvt. Ltd. Feb 2026 – May 2026

CERTIFICATIONS

- **Python, Machine Learning & Deep Learning -** Technical Training Certification | Codenex Global Pvt. Ltd. | Jan 2026
- **Career Essentials in Software Development** - Microsoft & LinkedIn | Jan 2026
- **Penetration Testing Professional Certificate** - Cybrary and LinkedIn | Nov 2024
